GUI / UX & FRONT-END EXPERIENCE

UI/UX & Front-End Designer | National Capital Division of Alpine Ontario (NCD) | Ottawa, ON

- Converted stakeholder requirements into responsive, user-centred interface designs, translating project needs into clear information architecture, navigation, and functional UI solutions.
- Developed and iteratively refined low- to high-fidelity wireframes and interactive prototypes in Figma, incorporating usability principles and stakeholder feedback.
- Translated approved UI designs and prototypes into responsive front-end interfaces using HTML/CSS, maintaining consistency in layout, interaction behaviour, and user experience.
- Conducted user and content research to inform information architecture, navigation, interaction design, accessibility, and usability decisions.
- Maintained clear design documentation, including UI requirements, design decisions, stakeholder feedback, revisions, and deliverables, ensuring accurate communication and traceability throughout the project lifecycle.

SELECTED ACADEMIC PROJECTS

AI-Assisted Operator Monitoring Interface | GUI / HCI / AI Interface Project

- Designed and implemented a human-in-the-loop operator GUI that simulates AI/ML anomaly detection, model confidence, recommended actions, and Normal/Warning/Critical system states.
- Created conditional operator workflows for alert review, **acknowledgement, dismissal, and escalation**, with audit-trail traceability; structured the interaction model for Axure RP prototyping using dynamic panels, variables, and conditional logic.

Orbit Ottawa | Front-End Interface Design Project

- Developed a responsive HTML/CSS/JavaScript interface with interactive navigation, search, animations, and carousel components, refining behaviour across screen sizes.

WearNest | Responsive E-Commerce UI Project

- Designed a multi-category e-commerce interface with product discovery, search, consistent navigation, and reusable UI patterns across responsive layouts.
